## BREAKING ALL RECORDS

Unknown at the beginning of 1926 . . . . . and in 1928 acknowledged to be the leading rural insurance organization in the Middle West is the amazing record of the Life and Casualty Company of Chicago. At the end of 1926 this company led . . . . . in production . . . . . one hundred insurance companies doing business in Illinois. And last year, 1927, it led one hundred and two. Think of it!

The Mutual Casualty Company of Chicago, an associate company, has likewise broken world's production records. Today these associated concerns have in force more than Fifty Million Dollars of life and casualty business, and have assets of more than \$1,190,000.00.

Another record-breaking achievement of the Mutual Casualty Company of Chicago is the increase of its surplus during the past few years by an annual average of over 300% — a wonderful accomplishment for a company in business less than five years.

The extraordinary success of these associated companies is due to the active support and co-operation of the leading farmers, rural business men and bankers in Illinois. Also, to the sound and conservative policies under which these companies operate. For example, business is solicited only from farmers and small town residents. A substantial portion of premiums is left on deposit with the local banks . . . thereby making available to Illinois farmers thousands of dollars that otherwise would be taken out of the rural communities.

The Largest Strictly Rural Life and Casualty Insurance Organization in the Middle West

### Life and Casualty Company of Chicago Mutual Casualty Company of Chicago

## Our Aim

To serve just a little better; to establish an atmosphere of helpfulness and friendliness, - - - that has always been the aim of the Thawville State Bank, - - - and now or later we shall appreciate an opportunity of handling your business and of serving you as you deserve to be served.

# THAWVILLE STATE BANK

THAWVILLE, ILL.

## Here, In Iroquois County, Our Interests Are Closely Related - -

All of us are dependent either directly or indirectly upon the great basic industry, agriculture.

The Watseka Chamber of Commerce, made up of business men, professional men, manufacturers and farmers, since its organization, has been active in its efforts to improve agricultural conditions. Its co-operative endeavors have been directed toward a permanent agricultural prosperity.

Too, the Chamber has sought to make Watseka a better place to trade, as well as a more pleasing place to live.

Witseka's progress has received wide notice. Watseka's stores are stocked to meet your needs. Watseka is known for quality merchandise at fair prices. Watseka merchants appreciate every opportunity to serve you.

YOU'LL LIKE WATSEKA.

## *Farm Electrification*

The application of Electricity on the farm has been given over to a most intensive research during the past several years.

Results from these test farms are now compiled in booklet form and are available for your perusal through the Company's rural electrification engineers.

With this booklet the Central Illinois Public Service Company offers a new liberal low cost Electrification plan available to farms adjacent to service lines and for extensions serving contiguous farms from existing service lines.

*It Will Pay You in Profit and Comfort To Ask  
One of The Company's Engineers To Explain This New Plan*

## *The Reward of Hard Work*

It is the industrious farmer as well as the business man who is building a basis for bank credit. Our officers realize that few people succeed without hard work. That's why a reputation for industry means so much when you come to borrow money.

It is the constant endeavor of the officers of this institution to make it something more than merely a bank. Through courteous service and friendly cooperation we try to make it a real business partner of those who make it their banking home.

## LINDBERGH TOOK A CHANCE!

And he came through nobly.

Yes, every business man "takes a chance" some-  
time or another. But taking chances where Insurance  
protection is concerned is never worth the risk.

I will gladly make sure you're not taking chances  
in any direction. Call or see

# The Sugar Creek Creamery Company

**Offers to the Cream Producers of Iroquois County  
Not only an Excellent Market for their Cream,  
but a Service Department as well.**

This department, known as our Dairy Development Department, devotes its time exclusively to problems of the Cream Producer. There is no charge for the service.

With conditions constantly changing in industry, there is also a need for changes in agriculture. The thousands of horses that used to be employed in doing the work in industrial centers have been replaced by motive power. The loss of this demand for corn, oats and hay must be made up in other ways.

The dairy cow offers the best solution. She will take the corn, oats and hay of the farms and convert them into cash. If you want to make more money from your cows, let our Dairy Development help you.

**SUGAR CREEK CREAMERY COMPANY,  
WATSEKA, ILLINOIS**
